SCIENCE EDUCATION EUROPEAN PLATFORM

www.seepnetwork.eu

SEEP AT A GLANCE

"SEEP-Science European Education Platform", is the name of the three-year project supported by the European Commission through the Lifelong Learning Programme. The project aims at building a sustainable network for promoting European co-operation and innovation in science education at secondary level.

BACKGROUND

The reason for establishing an European Network for promoting European co-operation and innovation in science education at secondary level in Europe lies on the perception that there are important challenges and target group needs, related to science education, training and guidance systems, that should be addressed on a cooperative approach!

OBJECTIVES

The objectives of the SEEP network are:

1. Strengthening the European dimension of science education and science work

2. improving science education and training quality

3. improving science careers guidance quality

4. improving science teachers and school managers competences linked to science education and guidance

5. increasing the production, exchange and dissemination of information, research findings, good practices, innovative products and processes in science education field

6. promoting and facilitating the transfer and exchange of existent innovative approaches in science education fields

7. making science education in Europe more attractive

TARGET GROUP

Science teachers, students guidance officers, trainers, school managers

NETWORK ACTIVITIES

European Thematic Training Sessions

- Foresight methodology and blended learning
- Learning styles
- The mentor role of teachers in science careers guidance
- European Cooperation

13 European Discussion Forums for best practices and experiences exchange

European Research, comparative analyses and case studies

- The present and future science applications in Europe
- Science labor market trends and opportunities in Europe
- European innovative approaches and methodologies in science education
- Science aptitudes and career choice in science

NETWORK WEB TOOLS

European Resources generator
SEEP Web-portal

PLANNED EVENTS

The European Science Day
Permanent European Science Exhibitions
European Workshops
A final European Seminar
